

Medium chain triglycerides and essential fatty acids contained herein are extremely fragile once extracted from their natural source. Light, heat, and air are all enemies of these fragile nutrients. Thus Wysong Coconut Blend is carefully prepared through gentle processing methods and then packaged in light-impervious, nitrogen-flushed (oxygen excluded) bottles. Additionally, a special natural Wysong antioxidant made from herbs, enzymes, and vitamin E epimers helps stabilize the fatty acids against oxidation. Made in USA.
