Use as directed. Oxherphol-D will not change the physical properties of the food or food product. The botanical oleoresins, which also contain natural antioxidants, usually pass unnoticed or impart a very mild flavor and aroma, and add depth to certain foods.

Oxherphol-D is a safe natural alternative to common synthetic preservatives and chemicals.

Note: For best results, dry food products should be mixed thoroughly with Oxherphol-D at the time of purchase and then repackaged into an airtight container for storage. Please recycle original food container if possible. If the product is in a single serving/use package, and no long-term storage is necessary, Oxherphol-D may be added at time of use in either this dried Oxherphol-D form or the original liquid form of Oxherphol (if product undergoes hydration).

INGREDIENTS: Spray Dried Tofu, Tocopherol Epimers of Vitamin E, Botanical Extracts of Sage and Rosemary, Ascorbyl Palmitate, and Citric Acid.

Oxherphol-D™

A Natural Preservative

Refrigerate or store in a
cool, dark, dry place.

Net WT. 2.4 oz. (68 g)

A safe, natural vitamin and herbal extract blend, designed to preserve flavor and stabilize food fats and oils from oxidative rancidity and health damaging free radical formation in powdered foods and food ingredients.
