

Safe-T-Suds™

*Dish Soap
& Degreaser*

All Natural • Additive-Free
10 fl. oz. (295 ml)

**Safe-T-Suds™ is a natural alternative
to synthetic dish soaps and cleansers.**

Additives and synthetics in commercial products may leave residues of questionable safety on dishes and other surfaces. Safe-T-Suds is natural and contains no harsh chemical ingredients. Safe-T-Suds contains biodegradable plant-based cleansers that provide phenomenal grease cutting, while emitting the appealing aroma of fresh citrus fruit. Please note that although Safe-T-Suds may not "suds" to the degree synthetic soaps do, this does not affect its extraordinary cleaning action.

Suggested Usage: To wash dishes, add a squirt under running warm water and agitate water until suds are produced. As a degreaser, Safe-T-Suds can be used at full strength. For an all-purpose cleaner, dilute with water as needed.

Ingredients: Purified Water, Corn-Derived Surfactant, Soapbark Extract, Soapwort Extract, Xanthan and Acacia Blend, Grapefruit Seed Extract, Natural Citrus Oil Blend, Aloe Vera, Yucca Extract.

- No Animal Testing • SLS/ALS Free -
